TRANSMITTAL OF PHASE II GEOLOGIC CHARACTERIZATION DATA ACQUISITION TASK 2-DEEP
SEISMIC REFLECTION PROGRAM-FINAL REPORT - WSB-240-93

Enclosed please find eight copies of the above referenced report. This report describes the seismic data collected from Coal Creek Canyon, across Rocky Flats Plant, to the western edge of Jefferson County Airport. This data adds significantly to our knowledge of the geology of the Rocky Mountain Front Range and represents some of the best data ever collected at this locale.

Several landowners who granted access to their property have requested copies of this report. Mark Buddy of my staff will transmit copies to the appropriate parties as soon as you give your approval.

If you have any questions or comments, please contact M. S. Buddy at extension 8519.

W. S. Busby

Acting Director

ERM/Remediation Project Management
